About me

Software Engineering student at UFMS, passionate about technology and software development. Throughout my studies, I have developed skills in programming, systems analysis, and software design, with hands-on experience in languages such as Java, Python, and C, as well as knowledge in SQL, AWS, and agile methodologies. I am seeking an internship opportunity in development where I can apply my academic knowledge, contribute to real projects, and continue to grow professionally. Committed to continuous learning and delivering effective solutions, I am excited to collaborate with a dynamic and innovative team.

Objectives

My goal is to apply academic knowledge in practical and challenging projects, gain professional experience in software development, and enhance my technical and interpersonal skills in a real work environment. I aim to establish a strong foundation for a successful career in software development, contributing to the success of the team and the company's projects.
